Personal Summary

A versatile professional with a strong academic foundation in Computer Science and Management, deeply passionate about leveraging strategic thinking and innovative approaches in project/product management and marketing roles. As a passionate and versatile B.Tech student with experience in multiple programming languages including C, C++, Python, Java, and web technologies such as HTML, JavaScript, CSS, Angular and MySQL, I am seeking opportunities to leverage my technical skills and creativity. Additionally, my involvement in both musical and cultural committees demonstrates my ability to excel in collaborative environments and contribute to diverse projects.

Education

Kameshwar School HSC	2022 - India
Ganpat University, BTech in Computer Science [in association with IBM]	2022 - Present

Relevant Experience

Intern, Karma Foundation	July 2023 - August 2023
<ul style="list-style-type: none">Book Collection Drive: Successfully spearheaded a book collection drive to establish free public libraries in underserved communities. Collaborated with diverse organizations to gather approximately 1000 books. Employed marketing tactics, including social media, posters, and community events, to amplify awareness and participation.	

Involvement

Cultural Club Member, Ganpat University	2022 – Present
<ul style="list-style-type: none">Organized over 20 cultural events, demonstrating exceptional project management skills.
